2024 Fundraising Calendar Photography Contest

Today is the Day!

The WCA [2024 We Love it Here! Photo Contest](#) starts today!

We are looking for a wide selection of photographs displaying the beauty and diversity of our region throughout the year. Whether you are a hobbyist, a professional or a local kid, teen, or adult, you have until May 31 to submit your photos for our contest.

All submissions will be posted on our website where the community can vote for five popular winners. Voting will be open from June 1 through June 30. Winners of the popular voting will be featured in the August WCA Newsletter.

Twelve winners will be chosen by a select committee of professionals, residents, and board members. Winners will be featured in the July Newsletter and published in the upcoming WCA 2024 fundraising calendar.

Entering is free!

No Mow May

Take a break in your mowing routine to give your lawn a chance to bloom! Pausing your mowing schedule will:

1. Support native pollinators
2. Reduce fossil fuel pollution
3. Encourage pollinator-friendly plants to blossom
4. Increase your lawn's health
5. Provide a burst of spring color

If a slightly unkempt look for May is too radical, how about mowing just the borders of your lawn so grass growth is less overwhelming?

The WCA will install a pollinator garden in the front yard of the Red Barn this spring. You might want to plant [pollinator-friendly plants](#) permanently. Ditching all or part of a traditional lawn could save time, lower maintenance costs, and reduce water use.

Best of all, you would be helping the environment. And the bees!
